Briefing to the Permanent Missions on the High-level Meeting of the General Assembly on NCDs (Geneva, 10 March 2011)

Noncommunicable Diseases = NCDs

Key messages

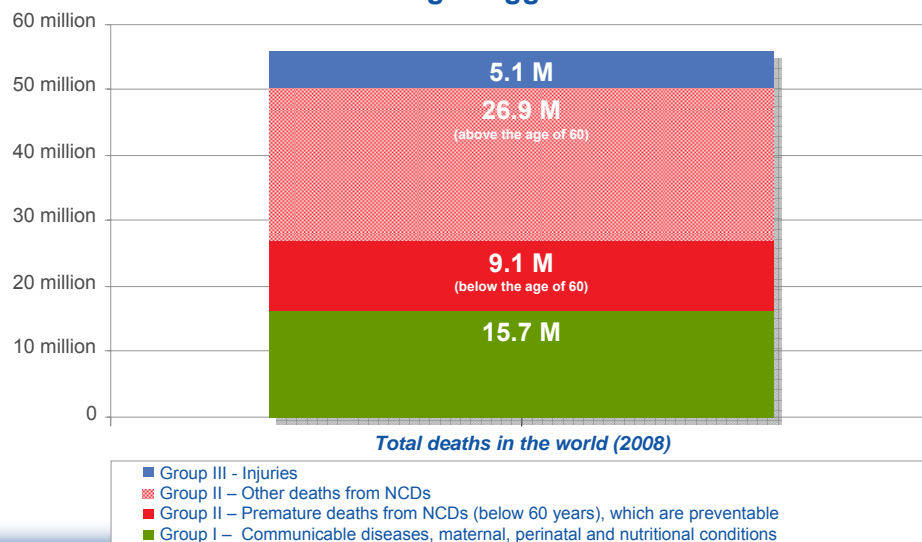

- **NCDs are the single biggest cause of death. 9 out of 10 deaths from NCDs before the age of 60 years of age occur in low- and middle-income countries.**
- **NCDs are a threat to economic development and they impede poverty reduction initiatives, including the MDGs.**
- **NCDs are preventable: there are cost-effective solutions that are affordable to all countries.**
- **There is a window of opportunity now to accelerate the implementation of the Action Plan of the Global Strategy for the Prevention and Control of NCDs (endorsed by the World Health Assembly in 2008)**
